

BEWARE OF Inhalant Allergens

Frequent sneezing, runny nose, and red eyes?

These are common symptoms of inhalant allergies. Exposure to these allergens can trigger our immune system to overreact and produce IgE antibodies.

These environmental allergens can trigger reaction:

- | | | |
|--------------|-----------------|-------------|
| ✓ Dust mites | ✓ Cockroach | ✓ Pigeon |
| ✓ Dog | ✓ Amaranth | ✓ Goose |
| ✓ Cat | ✓ Latex | ✓ Chicken |
| ✓ Horse | ✓ Acacia | ✓ Fungi |
| ✓ Mouse | ✓ Bermuda Grass | ✓ Sunflower |
| ✓ Rabbit | ✓ Duck | ✓ Pine |

Know which airborne allergens affect you.
