

IgE Inhalant Allergy Test

Frequent sneezing, runny nose, and red eyes? These are common symptoms of inhalant allergies. Exposure to these allergens can trigger our immune system to overreact and produce IgE antibodies.

- ✓ Dermatophagoides Farinae (Dust Mite)
- ✓ Dematophagoides Pteronyssinus (Dust Mite)
- ✓ Biomia Tropicalis (Dust Mite)
- ✓ Dog
- ✓ Cat
- ✓ Horse
- ✓ Mouse
